GENEROSITY

IMPACTS LIVES. MAKES A DIFFERENCE. HEALS.

## GENEROSITY HEALS

---

After two months of traveling several hours for care, I transitioned my treatment to St. Luke's Wood River. Local chemotherapy made a huge difference in my overall wellbeing. My husband Bob could bring me lunch, my friends could visit during treatment and I found emotional support from the nursing team. I am so grateful to the people who made the new infusion center possible. Its beautiful design and compassionate caregivers provide a sense of calm for patients who need to feel safe and well cared for during difficult times.
