

Sharing enables our world
to thrive. No one has everything
it takes to prosper. The whole
flourishes through the willingness
of one to share with many.

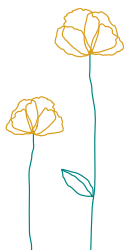

The Irene Marie Infusion Center began with a seed of generosity planted by the Spinty Foundation, Sutter Amador Hospital, and other community donors.

Irene Marie, the founder of the Spinty Foundation, valued relationships and humbly gave to many. Her vision and generosity helped create this treatment space.

Now patients no longer drive hours each day for infusion.

They can heal with sunlight, beauty, and nature among family and friends in our community.

It's a gift that continues to grow and sustain us.
