

THE GENEROSITY DECK

DECK OF CARDS

The Generosity Deck provides a playful way to think and interact. Each card contains a question and insight. Many are so unusual that they unlock hours of conversation. The deck invites us to explore our total giftedness—and what we want to design as well as avoid with wealth. These cards arose out of one family’s dialogue. You may want to extend the deck with cards of your own. This tool works well with gatherings in homes, philanthropic retreats, and family events. It’s most potent if used over time with one card for a single conversation.
